> Our Celestial brothren enjoyed the novelty as well as did their Caucassian friends, of the services well as did their Caucassian friends, of the services connected with the Christmas tree celebration held in the Chinese Church, Fort Street, on the afternoon of the 23d inst, under the direction of Mr. Frink Damon. The exercises consisted of singing, eading and addresses, and were participated in by the Chinese Sunday School scholars and Mr. Damon, the latter delivering an address to the assembled Chinese in their own language, which was received with respectful attention. Master Ching a youthful scholar of Miss Payson's gave an illustration of his proficency in the English language, the enumeration and delivery being most excellent. After the distribution of presents the company separated.

Ballantine 11, C. A. Bailey 8, J. Balley At the request of Dr. Hagan, resident physician of the Insane Asylinn, an inquest was held by Corner Dayton on the 21st inst. on the body of Charles Dias, a German, aged about 45 years, who had been found hanging, dead, in a cell connected with the Asyliam, on the morning of the 20th. Coroner Bayton obtained the services of six artisans employed about the building, as a jury, whom after being swom and viewing the body and hearing the testimony of Dr. Hagan, the attendants and Superintendent Wright, returned a verdict that the "deceased had come to his death by his own lands." The jury concerted the Asyliam antherities from all blane in the matter. Mr. H. Johnson, clerk of the Police Court, took down the testimony as offered. Nothing is known regarding the anteredents of the suicide further than that he was found in the streets of the city, and committed to the Asyliam in July, 1881. He has been regarded as dangerous, laving displayed homicidal and sociedal tendencies. Christmas season was the presentation of a purse containing \$100, to Miss Flaxman, by the members and friends of the Kawaiahao Seninary. The affair was a complete surprise and the happy re-cipient could only blists her acknowledgments.

The many friends of Mons, the Count de Louiseres, Chancelier of the French Legation of this kingthem, will undoubtedly be pleased to learn that is provenment has notified him of his promotion a the ourps, and has ordered him to duty at Syduy, N.S. W. The Cenut and his wife will not eave before the March steamer. The scul-annual examination of the Kawaiahao Seminury hast Thursday and Friday was very creditable to both pupils and teachers. It showed the scholars under most excellent discipline, the school premises neatly kept and the scholars quiet, prompt, trained to habits of attention and accuracy. The teachers were also shown to be enthusiastic and skillfall in their work. We published the programme in hast week's torette. Miss Norton's classes in hintory did themselves great credit, as did also Miss Stors' classes in language lessons and in arithmetic. We have no room for any detailed report. Prizes were awarded for neatness in the care of test books, for general attentiveness and improvement in study. It was very evident that the efforts made by the Principal, Miss Norton, to raise the standard of scholarship has been through success, and Hawaiian girls under her care have lead the advantage of most conscientions and skillful training. Her ideas of school management have been ally carried out with the hearty occourants of all the other teachers. Miss Prize occourants of all the other teachers. New York, Dec. 13.—The Board of Trade urgres on Congress the passage of an equitable and uniform bankruptey law; that a tribunal be established to the supervision of carriers in inter-State business; that the Hawaitan Treaty be discontinued at the expiration of its term, and that a Government postal telegrapy be established.

Wasniforne, Dec. A.—The House Committee on Foreign Affairs will probably consider on Friday the Hawaitan Treaty as it affects the sugar trade of the United States. Last session the Committee was evenly divided between retaining the reciprocity character of the treaty and modifying it so as to put sugar imported from the Sandwich Islands on a basin with sugar from other countries.

New York, December 14.—A large meeting wanted to night to insist on a reduction in the tarifon sugar to 1 cent on all grades.

hearing of interested parties at the meeting this morning, although there are present several gentlemen who desire to be heard for the sugar trade. The committee found themselves equally divided in regard to the bill abrogating the treaty. They gave out as a reason for postponing the matter that they wanted additional information from the Treasury and State Departments in connection with the bill. Orth, the absent member of the Commission, will cast the deciding vote, but a messesty from him is to the effect that he will not be able to come to Washington this season.

Sceretary Folger has addressed a letter to the Collector of Custons at New York on the Hawaiian sugar matter. The following is a copy: "I have considered the speed of Watjen, Tael & Co., from your assessment of duty on certain sugar imported by them from the Hawaiian Islands." After reciting their projects, the Secretary says: "The treaty referred to guarantees the free importation into ports of the United States of aumountable brown and all other unrefined sugars—meaning thereby grades of sugar heretofore commonly imported from the Hawaiian Islands and set down in the markets of San Francisco and Fortland at the time the fruity was pussed. This engir is unrefined and was man-ufactured by the vacuum pan process, and is of quite a high grade. Assuming that the question involved is one of fact, the weight of evidence sub-mitted is in favor of appellants, such sugars hav-ing been imported from the Hawaiian Islands, both before and after the adoption of the treaty, in large quantities. The appeal is sustained, and you are directed to reliquidate the entry free of duty.
